

**CITY OF SCHERTZ**  
**Request for Qualifications (“RFQ”)**  
**# 12-PK-29-M-01**  
**DESIGN-BUILD SERVICE FOR SCHERTZ SKATE PARK**  
Pre-qualification meeting held **JULY 26, 2012** at 9:00 a.m.

**Questions and Answers received as of July 26, 2012**

**Q: Is the City seeking to build a pour in-place Skate Park?**

**A: We will entertain any design including a slab with prefabricated equipment, pour in-place, or any other design.**

**Q: Is the City asking for more features opposed to good flow?**

**A: The Vendor should decide what is most desirable to skaters/users based on their skate park experience.**

**Q: Do we include costs in the proposal submission?**

**A: No, we have included the budgeted amount in the proposal. We are asking that you demonstrate to us what can be constructed based on the project budget.**

**Q: Should the vendor include drawings/photo's of similar completed projects?**

**A: Feel free to include any supporting drawings, photographs or similar items to describe your vision for the Schertz Skate Park.**

**Q: Are topographical maps available to show the natural slopes and shapes that may be used to design the project?**

**A: Yes, we will place the drawings and maps on the website to help the design process.**

**Q: Should we design the skate park to allow for future expansion?**

**A: The City is currently looking for a complete and finished project. If you wish to demonstrate in your design where additional features may be added in the future, it is the option of the vendor.**
